FIGHTING FOR CARPATHIANS

Result of Battles for Possession of Mountain Passes Important to Both Sides-Quiet in the Western Zone.

London, Jan. 30.-With the armies in France and Flanders recuperating after the strenuous fighting of the earlier days of the week and only local young millionaire came down the war situation has been transferred to the Russian offensive in East Prussia and the attempt of a strong Austro-German army to dislodge the troops of Emperor Nicholas from their positions in the Carpathians.

In East Prussia a Russian offensive has developed in the extreme north. where the renewed fighting seems to confirm the belief that a definite effort to advance north of the Mazurian Lakes district, where previously the Russians were defeated, has been decided upon by the Russian general

Wilson vetoed the Immigration Bill today and sent a special message to Congress saying he disapproved the measure because of the literacy test and other restrictive tests which it of immigrants to the United States. immigrants to th Unitd States. Among other things the president

says; "In this bill it is proposed to turn away from tests of character and of quality and to impose tests which exclude and restrict, for th enew tests here embodied are not tests of quality or of character or of personal fitness, but tests of opportunity. Those who come seeking opportunity are not to be admitted unless they have already had one of the chief oppor tunities they seek-the opportunity of education.

"The object of such provisions is restriction, not selection.

"If the people of this country have made up their minds to limit the number of immigrants by arbitrary tests and so reverse the policy of all the generations of Americans that have gone before them, it is their right to do so. I am their servant and have no license to stand in their way. But I do not believe that they have. I respectfully submit that no one can quote their mandate to that effect."

When the message was read there was applause from both sides of the Sphere. chamber. Similar applause followed a statement by Representative Burnett that he would move that the measure be passed over the president's veto.

AID FOR MODERN SUBMARINE

Periscope Enables Operator to Ob Serve What Is Passing on Surface of Water Above Him.

The modern submarine is effective only because those within the vessel are able to look over the surface of the sea in all directions, even though the submarine is beneath the surface of the water. The periscope makes this possible and so it deserves to be called the eye of the submarine. The periscope is a straight, hollow tube that rises from the steering compartment of the vessel and reaches above

the water when the submarine is lying just beneath the surface. As the periscope is but six inches in diameter and rises but 18 inches above the water, it is almost invisible. The rays of light enter the opening in the side of the tube at the top and are reflected downward to a lens at the bottom, which focuses them and gathers the rays into an eye-piece through which the operator is enabled to see what is passing on the surface above him. The total length of the periscope on the ordinary submarine is about 15 feet .-
